

Femmenessence™

Contains Maca-GO™

~~Soy~~
~~Red Clover~~
~~Black Cohosh~~

*... running out
of options?*

Finally a complementary alternative with clinical evidence...

that works. In 2007 Natural Health International published its final paper on 5 years of research, pharmacology and double blind controlled clinical trials on Femmenessence™. The results not only saw 84% of post menopausal women experience reductions in symptoms such as night sweats, hot flushes and mood swings, but importantly statistically significant affects on hormone levels.* Femmenessence™ is an organic, concentrated and highly bio available, proprietary combination of specific phenotypes from one of nature's strongest adaptogens - maca, which does not introduce any hormones into the body.
